VISO HP70

Wireless Active Noise Cancelling HD Headphones

ACTIVE NOISE
CANCELLING

Qualcomm
aptX™ HD

ROOMFEEL™

Don't get tied down with wires. NAD VISO HP70 headphones offer the details of a live musical performance and are enhanced with Bluetooth® aptX™ HD technology so you can enjoy CD-quality sound wirelessly with freedom, no matter where you listen. Infused with Active Noise Cancelling and RoomFeel™, a technology that delivers the full range sound of a high performance loudspeaker inside of a room, the NAD VISO HP70 instantly transports you inside a soundstage that is more expansive and detailed than anything you've heard before.

With three built-in listening modes, you can listen to your headphones in passive, amplified or active noise cancelling mode, giving you the flexibility to maximize your listening experience at home or on the go with up to fifteen hours of battery life for wireless use as well as battery-free in passive mode. Its sleek, lightweight over-ear design keeps you comfortable even during the longest listening sessions. Take calls, skip songs, and control the volume of your favourite tracks right from your headphones with high-clarity dual beam-forming microphones and button controls integrated directly into the ear cups.

Features
